DETAILED ACTION

Election/Restrictions

Applicant's election without traverse of the invention of Group II in the reply filed on 5/12/05 is acknowledged.

Claims 9-16 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on 5/12/05.

Double Patenting

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. A nonstatutory obviousness-type double patenting rejection is appropriate where the conflicting claims are not identical, but at least one examined application claim is not patentably distinct from the reference claim(s) because the examined application claim is either anticipated by, or would have been obvious over, the reference claim(s). See, e.g., *In re Berg*, 140 F.3d 1428, 46 USPQ2d 1226 (Fed. Cir. 1998); *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) or 1.321(d) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent either is shown to be commonly owned with this application, or claims an invention made as a result of activities undertaken within the scope of a joint research agreement.

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Claims 17-18 are rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 1, 6, 11-14 and 16-18 of U.S. Patent No. 6,505,768. Although the conflicting claims are not identical, they are not

patentably distinct from each other because they merely differ in terminology and not scope, in addition to claiming the tray of fasteners. It would have been obvious to one skilled in the art to provide the invention of the patented claims with fasteners since such surgical staplers typically have removable fastener cartridges for the replenishment of additional staples after staple delivery.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Burdorff '543, Whitman 087, and Whitman '643 disclose pertinent references.
